CHANCELLOR COMANDER'S MESSAGE

Our April meeting was the first meeting since the pandemic struck, it was the first time that many of our brothers were able to see each other in person. We all enjoyed a couple of slices of pizza and most of all renewed our friendship in about a year.

We held nominations and elections, Grand Chancellor Richard Albert installed the officers and we sat down to business. Several ideas were discussed among them was our annual

motorcycle event. The date has been set and we need volunteers to help as well as people to get donations and gifts.

Other ideas were brought up among them was a picnic at Borderland Park in the late spring, early summer. All will be invited, bring your lunch and chairs, more will be announced at a later date.

We are looking into either a whale watch or fishing trip during the summer. Currently two or three locations are being researched.

Another suggestion is an evening or afternoon at a beer garden.

We are looking for committees run these events. Please call me if you are interested.

Yours in F C & B

KNIGHTLY KNEWS

David Winer is attempting to place 100,000 miles on his car in the next 2 weeks. So far, he has travelled from Lowell to Fall River with stops in Norwood. No wonder why he had to replace the transmission. And it was still under warranty.

Dave Prager was seen chasing his granddaughter at the Stone Zoo looking for "Dinos". All they found was a flock of Flamingos and a tortoise!

Paul Waitze recently challenged his grandson Brady to a golf match. Brady scored lower on his 18 hole romp than Putter Paul did on his first three holes. Brady, you gotta let grandpa win once!
